## Body Count

This song is dedicated to the heroes, the real heroes!  
Young men and women that have given their lives  
And risked their lives for this country!

Taught you everything, dropped out of school at 17  
Trying to get a job at an early age,  
But no diploma means minimum wage.  
Bumped into a military recruiter,  
Said the same, no game, no first person shooter.  
With high-school you missed it,  
So that day you're enlisted.  
First day off the ...  
Basic training, scared as fuck,  
Thrill instructors, demons from hell  
You never forget what you hear and yell  
Six minutes of torture drives you insane  
March, run, march, train!  
You're asking yourself why the fuck you came,  
Lock them all 30 rounds, watch your lane!

I, I will always love you  
I, I will always love you  
I, I will always love you  
We, we always will love you  
We, we always will love you  
We always will love you  
Always will love you!  
Always will love you!

Basic bullshit, the AIT,  
Been through a unit, company, squad  
You finally get a break cause training it's hard.  
You meet your new fam, the platoon men  
You bond with them, they become your boys  
Two months later you're all deployed.  
Now damn rain, shit gets real  
Enemy shoot back, confirm your kills  
You learn firsthand, PTST,  
Your best friend's kill, by IED  
You watch your whole team get blown apart  
You catch a frag in a purple heart.  
You write back home, you lost your pride  
This struggle with God is a suicide  
To this country you gave your life,  
And we must respect your sacrifice!

I, I will always love you  
I, I will always love you  
I, I will always love you  
We, we always will love you  
We, we always will love you  
We always will love you  
Always will love you!  
Always will love you!  
Always will love you!  
Always will love you!

This goes out to my fellow vets  
Sometimes you come home, you don't get the respect you deserve  
You don't get the love and the praise that you should  
Well, I'm here to give it to you right now!  
A lot of times people don't realize  
That the freedoms we have here  
People have thought and died for it  
Giving their lives!  
Come on, man!  
I love you!

I, I will always love you  
I, I will always love you  
I, I will always love you  
We, we always will love you  
We, we always will love you  
We always will love you  
Always will love you!  
Always will love you!  
Always will love you!  
Always will love you!
