

## Call To Arms

Bodyjar

It's only fair that I should warn you  
The day will come when  
You know you've got to  
Start coming around and  
Say what you're thinking

Turn your back pretend  
you don't care  
Saying nothing will  
get you nowhere  
How can you believe a  
word they were saying?

This is a call to arms  
If we get it right  
This is a call to arms  
Don't be afraid to fight for your life

What you hear and  
what you're reading  
Soon become what  
you're believing  
Are you coming around  
to my way of thinking?

You spend your life  
You try to make it  
Did they teach you a lot?  
Do you fake it?  
Never tell you enough  
to know what the truth is
