

Living In

Bodyjar

I see you've got some time to waste
You wish your dreams away
Why don't you get that gun It could be so much fun

We're biding our time together
We're trying but it doesn't matter
Because we're living in We're living in

Look what progressions done Just look at what it's become
They made things happen fast but never made them last

We're biding our time together
We're trying but it doesn't matter
Because we're living in We're living in

Too many problems in my life
I wish they'd all just get away
Too many problems in my world
I wish they'd all just go away
