

## Too Drunk To Drive

Bodyjar

Give me the keys now you're too drunk to drive  
You say it's all because of me  
Tilting your head so you can catch me eye  
Promising things I can't believe

Why can't you recognise the need  
I don't wanna be the one  
That's always left to find you

Some people live on memories  
I don't wanna be the one  
That's always left to find you  
Find you

If I could make everything work out right  
I'd bring my photographs to life  
But it's hard to figure out reality  
When you're consumed by compromise
