

## Work It Out

Bodyjar

It's been so long but  
I will work it out some time  
I don't think what you care anyway  
I'm gonna change this world  
I know I can do it myself  
I don't care what you say anyway  
You can't hold me down

Just leave it with me and I'll work it out  
Just give me some time and I'll work it out  
I'll work it out I'll work it out

I've got to change the way I think upon myself  
I don't care what you think anyway  
You waited 'round too long now the time has gone away  
Cos I found my way home yesterday  
You can't hold me down  
I see you You see me I don't know what to do
