

## Destructive Infinity

**Bolt Thrower**

You never thought life could come to this  
Man reborn to die upon the altar of war

And now we stand to face the truth  
This world now enslaved, bound by hate

In fear of life, now that the mindless control  
As the flame of hope for mankind now burns away

For now you stand alone to die  
Whilst visions of horror infest your mind

Destructive - Man's lust for power  
Infinity - A lifetime of war

Destroying your world, again and again  
Suffering in torment, through agonising pain

Killing for pleasure, only the strong shall remain  
An arising slaughter, as hatred and terror now reigns

Destructive - The world ripped apart  
Infinity - A never ending fear
