

# Forgotten Existence

Bolt Thrower

Storms calm neon skies  
Still chilling winds roam the nuclear wastes  
Haunting the conscience of a forgotten existence  
Civilisation's mistake

Peace at last takes it's grip on the land  
For a moment time stands still  
Existing in the debris of bygone wars  
Hope breeds an incentive not to kill

Existence declines, extinction mankind  
A lifetime of time slips away

Resurrect mankind sacrificed to power  
From ruins to the birth of a new reality  
Rising from the ashes of past destruction  
Civilisations, new existence

Lost in a void without future or past  
Shattered mind in the presence of pain  
Domineering desolation  
Controlling the solitary plains

Existence declines, extinction mankind  
A lifetime of time slips away

Darkest fears dwell in man's mind  
Insight to depths of what will be  
Reclamation from the paths of destruction  
From ruins to the birth of a new reality

Construction from destruction  
Bringing back life to mankind  
Rebuilding an existence sacrificed for power  
A future with hope to find

Existence declines, extinction mankind  
A lifetime of time slips away

Existence - Declines  
Extinction (of) Mankind  
Lifetime - Of time  
Now slips - Away
