

## This Time It's War

**Bolt Thrower**

Intimidation you can't take much more  
No compromise - this time its war

Take none alive - their battle cry roars  
Nowhere to hide - this time its war

Face the fear that grips your mind  
The final conflict - the end of mankind  
Read the hatred deep within their eyes  
It's your time to die you now realise  
What has occurred to man  
Just isn't how you planned  
Enslaved by machinery  
Submit to technology

Our future lives - Mankind's entity  
Lies in our hands - Together we must face reality  
A ruined world of lost identity  
Technological supremacy
