

Arizona

Bomshel

"Arizona"

Those pictures that I saved of you
Are lyin' along the 202
Well, I don't wanna see them anymore
And that locket that you gave to me
Is hanging off a Joshua tree
It took up too much space here on the floor

I'm leavin' all the things you did
The I love you's you never said
Lookin' back I won't have much to miss
Like all those empty promises
And all those lies that you fed me
That left this bitter taste here on my lips
I'm leavin' it all, back in Arizona

I watch your letters taking flight
Across the painted dessert sky
I know you didn't mean them anyway
And that ring I wore on my left hand
Is somewhere buried in the sand
It'll be somebody's treasure there one day

I'm leavin all the things you did
The I love you's you never said
Lookin' back I won't have much to miss
Like all those empty promises
And all those lies that you fed me
That left this bitter taste here on my lips
I'm leavin it all, back in Arizona

I'm headin' east and drivin faster
On my way to greener pastures

I'm leavin all the things you did
The I love you's you never said
Lookin' back I won't have much to miss
Like all those empty promises
And all those lies that you fed me
That left this bitter taste here on my lips
Oh, I'm leavin it all, back in Arizona

I'm headed east and drivin faster
On my way to greener pastures
