

# Just This Way

Bomshel

It's the smell of your skin  
When you just come in  
From in the yard

It's the taste of your lips  
When you kiss me  
You know you've got my heart

This dandelion necklace  
That's hanging on the wall  
From the night that you told me  
That you were fired

Our love is just this way  
Pure and simple, built on faith  
You and I just feels so right  
It's paradise, it's paradise  
Our love is just this way  
It's what we do and its what we made  
Maybe we been changed but our love will stay  
Just this way  
Oh

There's us dancing in the kitchen  
And ya sing off key to the radio  
And baby I'm your biggest fan  
With you and your wooden spoon microphone

Although we don't need the money  
Honey we'll need the fame  
Yeah we got each other  
At the end of the day

Our love is just this way  
Pure and simple, built on faith  
You and I just feels so right  
It's paradise, it's paradise  
Our love is just this way  
It's what we do and its what we made  
Maybe we been changed but our love will stay  
Just this way

All those fairytales  
Ain't got nothing on us  
We're as real as it gets  
And as true as its comes

Our love is just this way  
Pure and simple, built on faith  
You and I just feels so right  
It's paradise, oh it's paradise  
Our love is just this way  
It's what we do and its what we made  
Maybe we been changed but our love will stay  
Just this way  
Oh, yeah

Just this way
