

Love Me For Me

Bomshel

I tend to laugh just a little too loud
What's on my mind usually comes out my mouth
I've never been one to blend in the crowd
But I'm ok with that
I lose my keys and I'm constantly late
I'm comfortable a couple pounds overweight
I'm gonna eat when I'm out on a date
Cause that's just who I am

I'm gonna live my life out loud
Sing the truth, lay it all right out there
For the whole wide world to see
And if you're gonna love me
Then you're gonna love me for me

I love to dance with my two left feet
I'm best friends with whoever I meet
You might hurt the heart I wear on my sleeve
But I will take that chance
One day I might just change the world
I'm gonna do it bein' just a girl
Who's gonna say things you can't ignore
Cause I love and I believe

I'm gonna live my life out loud
Sing the truth, lay it all right out there
For the whole wide world to see
And if you're gonna love me
Then you're gonna love me for me
Yeah

Oh I'm livin' my life day by day
And I'm through basin' it off what others say is right

I'm gonna live
(Live my life out loud)
I'm gonna live
(Live my life out loud)

I'm gonna live my life out loud
Sing the truth, lay it all right out there
For the whole wide world to see
And if you're gonna love me
Then you're gonna love me for me
