

# I'm With You

**Bon Jovi**

Look at this world  
It's filled with worn out places  
Forgotten faces and nothing changes  
Whatever happened to that new day rising  
We're just surviving and living is dying  
Aren't you tired of being let down  
Another day, another shakedown  
I'm With You

When hope is gone and all you want is the truth (I'm With You)  
You carry on when it seems no use  
I'm With You  
If I got one thing I got something to prove  
We all got nothing if there's nothing to lose (I'm With You)

I walk in shadows that seem all familiar  
I've read the papers, a life forsaken  
A vacant storefront  
I'm an awful sale sign  
Down on Main Street you just walk by  
How many times you gotta break down  
Before somebody's gonna shout out  
I'm with you

When hope is gone and all you want is the truth (I'm With You)  
You carry on when it seems no use, (I'm With You)  
If I got one thing I got something to prove  
We all got nothing if there's nothing to lose (I'm With You)

When hope is gone and all you want is the truth (I'm With you)  
You carry on when it seems no use, it seems no use

Well I got one thing I got something to prove  
We all got nothing if there's nothing to lose (I'm With You)  
I'm with you  
I'm with you  
I'm with you
