

# I Want You

Bon Jovi

1. The last time that I saw her  
Was the night she said goodbye  
She said that love's a stranger  
And it's sure to pass you by (yesterday)  
As she packed up her belongings  
Baby wouldn't look me in the eye  
But I could see s tear roll off her face  
As we tried so hard not to cry, she said

R: I never wanted the stars  
I never shot for the moon  
I like them right where they are  
All I wanted was you  
So baby just turn away  
Because I can't face the truth  
All i'm trying to say  
Is all I wanted was you

2. I tried so hard to remember  
Where when how why love went away  
I tried to drown myself in pity  
But the memory kept calling your name (yesterday)  
I brought you fancy cars and diamond rings  
All the things that my money brings  
And the servants to paint the sky blue  
And I worked so hard seven days a week  
And build a fotress for your heart to keep  
If I could I'd wrap these words up for you ... yeah

R: I never wanted the stars...

I want you, I want you  
Baby, I want you....  
But never thought you were alone  
I filled the party up with company  
But never made our house a home

All I got is my guitar these chords and the truth  
All I got is my guitar... baby all I wany

R: I never wanted the stars...

I want you. I want you  
Baby, I want you  
I want you, I want you  
Baby, I want you...
