

## Secret Dreams

Bon Jovi

Riding high, then shot down  
I load my guns to fire another round  
I look deep into your eyes  
And can't run there's nowhere left to hide  
Don't stop, no it's much too late  
When the night comes I can't wait  
Oh I live, love to loose control  
It makes me crazy I want to let you know

Oh, no, I don't want to fall  
Oh, oh, can't you hear me calling  
All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you -- next to you.  
All I want in my secret dreams  
Is you here with me.  
I got to get to you, get to you, get to you.

There's a thrill, in the chase  
We won't lose when we meet face to face.  
Love, games a means without an end.  
I go down but I'll be back again  
Thru' the night with no retreat  
When you're with me in my sleep.

Oh, no, I don't want to fall  
Oh, oh, can't you hear me calling  
All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you -- next to you.  
All I want in my secret dreams  
Is you here with me.  
I got to get to you, get to you, get to you.

I can see you  
I feel you every night  
I need you  
But I'm only dreaming  
All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you -- next to you.  
All I want in my secret dreams  
Is you here with me.
