

# Silent Night

**Bon Jovi**

After the smoke clears and it's down to you and I  
When the sun appears and there's nothing left but goodbyes  
We'll just turn and walk away... how could we let it end like this

Just turn and walk away... should we seal it with a kiss?  
It's too late... now you're out and on the run  
Much too late... to held up in love without a gun  
Silent night... we hold up our candle light  
Silent night.... the night that our love died  
No words to say... now we're both to tired to fight  
So hold me close.... and don't let go  
It was all so simple when... you wre to be queen and I'd be your king  
t

I guess these dreams got lost... cause baby you're still you and  
I'm still me  
Now letting go... it's always the hardest part to fight  
When we both know... we're just two more victms of the night  
It's too late... too late to wonder why  
Much too late... to save a love that's died  
Silent night... we hold up our candle light  
Silent night.... the night that our love died  
No words to say... now we're both to tired to fight  
So hold me close.... and don't let go  
After the smoke clears and it's down to you and I  
When the sun appears and there's nothing left but goodbyes...  
Silent night
