

# Stranger in This Town

Bon Jovi

Hey mister can you tell me  
What this worlds about  
It might just help me out  
I used to be a dreamer  
But my dreams have burned  
You know how luck can turn

Sometimes its hard to find a friendly face  
Feel like a stranger to the human race  
Its such a lonely, lonely place

I walk alone in the darkness of the city  
Got no place to call home  
I might be dyin  
But you cant hear a sound  
cause midnight rain is comin down  
Im just a stranger, a stranger in this town

Everybody loves a winner  
Till the winners lose  
And then its front page news  
Nobody loves a loser  
When youre down and out  
You know there aint no doubt

Im just a victim of circumstance  
Please mister give me a helping hand  
Brother wont you understand

I walk alone in the darkness of the city  
Got no place to call home  
I might be dyin  
But you cant hear a sound  
cause midnight rain is comin down  
Im just a stranger, a stranger in this town

Im just a victim of circumstance  
Please mister give me a helping hand  
Brother wont you understand

I walk alone in the darkness of the city  
Got no place to call home  
I might be dyin  
But you cant hear a sound  
cause midnight rain is comin down  
Im just a stranger, a stranger in this town  
I mean no danger, Im a stranger, Im a stranger  
Im a stranger in this town...  
I mean no danger, Im a stranger...

Im just a stranger in this town
