

# The Distance

Bon Jovi

1. There's a train out in the distance  
destination still unknown  
Far away where no one's waiting  
so far from home, so far from home

2. There's a rose outside your window  
the first snow is falling down  
Like that lonesome whistle blowing  
I keep on going, keep on going...

R: Close your eyes and see my blue skies breaking through these  
dark clouds You are the light  
In my mind I see your red dress and your arms are reaching t  
hrough the night  
I'll never give up the fight  
I'll go the distance

3. There's a thread that runs between us  
pulling 'cross this great divide  
It's only there for the believers  
Don't stop believing, don't stop believing

play chorus a few times and then play  
ill go the distance
