

When She Comes

Bon Jovi

Outside this world keeps turnin round
London bridge keeps burnin down
But itll be all right, oooh

No one hears our silent screams
In this land of broken dreams
But itll be all right, when she comes

Itll be all right, when she comes
Itll all be tight, when she comes

And when I lie she still believes
She dont ask why, shes there for me
When it gets hard, shes all I need to get by

I hear her voice in a thousand places
I try so hard, still I cant escape it
Shes the one, when she comes, yeah

And if the sky come fallin down,
I never ever even hear a sound
Its true, shes as great a red
As blue skies are blue

Everythings all right, when she comes
Everythings all tight, when she comes

And when I lie she still believes
She dont ask why, shes there for me
When it gets hard, shes all I really need

Everythings all right, when she comes
Itll all be tight, when she comes
When she comes
Its all right, its all right, when she comes
Its all right, its all right, when she comes
Its all right, its all right, its all right, when she comes
Its all right, its all right, its all right, when she comes
