

# Get Up & Get It

Bone Thugs-N-Harmony

You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get up, get up, get up  
(Get up, get up, get up, get up, get up and get it)

Get up and get something

It's all about money ain't nobody frontin'  
I gotta go get it we gotta survive  
Whether it's workin' a nine-to-five  
Or ridin' the hustle I gotta get mine, bottom line  
Most of my time I'm out here puttin' in work  
For all of my days that I run this earth  
I'ma make it count for what it's worth  
You never know about this life and the type of pain that it can bring  
That's why you gotta get off of you're thing cuz it ain't no dream and it  
ain't no game  
We so serious, dogg you know it don't stop  
I know time is the devil's workshop

See I do it I did it  
And y'all know that I'm wit it  
I'll give anything for passin' and take to it back  
A hustlin' little brother with crack  
But now I grind a little bit harder  
Harder my niggaz stories in order  
See, it was hard for me momma  
My mother dropped in the water  
My sister was damn fast, Heather was right behind ya  
Cassie, that's my little sister  
My father loved you like the only child  
Funny, he ain't never seen my smile

You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get up, get up, get up  
(Get up, get up, get up, get up, get up and get it)

You betta get on yo grind  
You betta go get it if you really tryin' to shine  
You betta be keepin' yo eyes on your prize at all times  
Keepin' it real for my all of my thugs in the projects  
The niggaz that ain't got shit  
Not havin' this nonsense my niggaz  
My momma said, boy if you ever wanna be anything  
Get off the couch and out my house, use your brain  
So I took heed and I jumped right up on my feet  
Got off the streets and I'll be  
In heat I'm laughing at police now

Coming to you like this  
This used to be child  
Is now a grown man  
Don't play with the wrong hand  
But I never could quit cuz I'm playin' a strong man  
Everybody got a point to prove you might as well start today  
Rather than puttin' it off tomorrow  
You're lettin' it slip away  
Lil' Lay, I parle  
And get paid, and that's all  
And I creep and I rise  
In yo eyes I still ball  
And stand tall with my chest  
And my cheek to the sky  
I'm in it to win it my nigga believe it until the day that I die  
So come on

You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get up, get up, get up  
(Get up, get up, get up, get up, get up and get it)

Anything you want, anything you need  
You gotta get it, yeah and go get it  
Ain't comin' to you, you gotta put in your dues  
Show the world that you can do it  
Don't let nobody hold you back  
So you betta get your hustle on  
Baby betta get your hustle on  
You betta

We some of the livest, you know  
True thugs don't really mind to riot, let it go  
They sayin' get up and get it  
Yes we went and did it  
You won't admit it  
Cuz you hatin' cuz you can't get it  
Every since I was a young thug  
Been creepin' showin' mo' love  
Even when I got it you best to give it up  
It's Cleveland, until we get what we want we ain't leaving  
This is what we want with no chumps, please believe it

You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get out and get something  
(Get up, get up, get up, get up, get up and get it)  
You gotta get up, get up, get up, get up  
(Get up, get up, get up, get up, get up and get it)  
(2x)

Gotta get the cheese in the lab

Begging on my knee  
Gettin' money till we flooded with ice
