

Blink Of An Eye

Bonfire

Sometimes I feel
I've been missing out of life
Betting on the wrong horses
So many times, I was on the run
Moving on in circles
Now I know, it's kinda hard to face the truth
All the days you waste in trouble
Will come on back to you
Years go by in the blink of an eye
Another truth that you can't deny
Years go by and I don't know why
We let'em slip away
Years go by like a day of a fly
No chance you can't turn back time
I didn't want it that way
Looking back
Doesn't always ease the soul
It's never too late to say I'm sorry
Sometimes it's hard
In the shadows of my mind
To find a way to salvation
Now I know I gotta change this heart of mine
'Cause from the cradle to the grave
We all live on borrowed time
Years go by in the blink of an eye
Another truth that you can't deny
Years go by and I don't know why
We let'em slip away
Years go by like a day of a fly
No chance you can't turn back time
I didn't want it that way
Lord I know, yes I know
I need some piece of mind
Begging please, help me please
I'm running out of time, can't you see?
SOLO
Years go by in the blink of an eye
Another truth that you can't deny
Years go by and I don't know why
We let'em slip away
Years go by like a day of a fly
No chance you can't turn back time
You say I didn't want it that way
