

Can't Wait

Bonfire

Your wild looks Burned a hole right through my heart I get chills
When I think about that night The days without you Are a never-ending
nightmare Baby can't you feel it I'm in trouble deep inside

Oh yeah You're the only explanation Oh yeah That I can't sleep
'cause you are One in a million girls

Can't wait 'til I feel your love inside Baby Can't wait 'til we
spend another night And it feels so right When you do the things
you do to me Can't wait This is love and tonight it's coming true

Secret dreams Temptation and addiction Take away - any reason in
my brain I'm caught up in you Like I'm caught up in a prison So
baby don't you set me free I don't wanna break away

Oh yeah I'm just prisoner of my heartbeat Oh yeah Believe me girl
I can't resist The spell you put on me
