

## Fight For Love

Bonfire

remember the winters ... when time it just stood still  
Making love by the fireside, God it felt so real  
And I still feel it burning ... when I look into your  
eyes  
Time was all we had to waste and I never wondered why  
I remember the summers ... and the never-ending nights,  
yeah  
We drove around forever and ever knowing it was right  
But sometimes we could see ... into the eye of the  
hurricane  
It's love and pain, it's one and the same  
Every single breath we took was full of emotion  
No matter what they say, we'll never walk away  
Chorus:  
For love, we'll always fight for love  
No you'll never have to cry, no I'll never say goodbye  
For love, we'll always fight for our love  
Like a light into the darkness...  
I will show you, I will show you how  
I remember the springtime, we were kids and playing  
love  
Growing older and so much bolder, we couldn't get  
enough  
We always took for granted ... that everything would  
turn out right  
But dreams were not enough this time, this time we had  
to fight, yeah  
Every single little time we kissed was more than a  
promise...  
That we'll take each other's hand ... and we'll make  
the final stand  
Chorus  
How to find the way, oh oh  
We're fighting, fighting for love  
For love, we'll always fight for love, baby  
No you'll never have to cry - you'll never have to cry  
No I'll never say goodbye  
For love, we'll always fight for our love  
Like a light into the darkness...  
I will show you, I will show you my love  
We'll always fight for love  
No you'll never have to cry, no I'll never say goodbye  
For love, we'll always fight for our love - we'll stay  
together  
Like a light into the darkness...  
I will show you, I will show you how  
Fight for our love  
Ooh oh oh, baby  
Fight for our love
