

## Good Night Amanda

Bonfire

Good-bye came - without a warning  
I never thought - it could hurt me that way  
You've been like - a new day dawning  
a snowflake melting - on a sunny day  
How can I live without you  
God - I miss your smile

CHORUS

So Good night Amanda  
Good night - I wish you well  
I'll remember you  
whereever you are now  
I wish you good night - I wish you good night  
My days were filled - with your sweet laughter  
I'll always cherish - the your memory  
And all the nights - we've been together  
just holding you - so tenderly  
Still I dream about you  
God - I miss you so

CHORUS

It's so hard not to think about you - girl  
I have built my world around you  
but somehow it stopped to turn - without you

CHORUS

So Good night Amanda  
Good night - I wish you well  
I'll remember you  
whereever you are now  
I wish you good night - I wish you good night  
So Good night Amanda  
Good night - I wish you well  
you'll be in my heart  
until we meet again (until the end of time)  
I wish you good night - I wish you good night
