Hearts Bleed Their Own Blood

Bonfire

I remember – walkin' hand in hand – with you
I remember – drawing hearts in the sand – so true
But one fine day you've thrown it all away – 'nd left
for another man
'nd sometimes truth hurts more than a lie – though it's
hard to understand
CHORUS
Hearts beat their own beat
with every little teardrop from your eyes
Hearts bleed their own blood
'nd there ain't nothing's gonna cure a bleeding heart
but love
I still miss you – even after all those years
'nd I still kiss you – in my dreams you're always here
No – I can't live without you baby – I guess you broke
this heart of mine
Like a chord that weeps the minor way – it makes me
wanna cry
CHORUS
I would do everything
to win you back again
and be there for you
I'd give my life for you baby
I still love you
CHORUS
