

# I Need You

Bonfire

I wish that you could read my mind  
And see the words I hide  
Sometimes a man's not man enough  
'cause he's too full of pride  
I tried to live without you  
I didn't make it a day  
Without your love and you  
let me say  
I wanna lay my arms around you  
And tell you I love you  
Just like the roses need the water  
Baby I need you - baby I need you  
You've got a way to make me feel  
Like no one else before  
I watch you sleep and wonder why  
I closed an open door  
I tried to live without you  
I tried to make believe  
That I don't care about you  
and me  
I wanna lay my arms around you  
And tell you I love you  
Just like the roses need the water  
Baby I need you - baby I need you  
I wanna lay my arms around you  
And tell you I love you  
Just like the roses need the water  
Baby I need you - baby I need you
