

Life After Love

Bonfire

Once I felt - so strong about us
that we would never go apart
I always thought - that truth is living
in our minds - and deep in our hearts
You slammed the door - and you left me crying
but that don't matter anymore
And deep within - I feel like dying
'cause I know that you won't come back no more
It's too late - to say I'm sorry
much too late - when all the damage is done

CHORUS

Will there be life after love
another morning
Or will my heart break apart
without you - in a life after love
There was a time - when I didn't listen
to what your heart was tryin' to say
Separate ways - can be so lonely
but I sure did never want it that way
It's too late - to talk it over
much too late - 'cause this ain't home anymore

CHORUS

Love is like a road - forever winding
and where it leads you - you don't know
It can lead you - to a place like heaven
through all kinds of hell - you never can tell

CHORUS
