

Sleeping All Alone

Bonfire

Sitting here another night
in television view
seems like that's my only friend
when I'm away from you
Yeah, we had another fight
about the other flame
now you claim the candle died
but I say it's the same
You say I'm the only one
now that just suits me fine
you better treat me good
'cause I'm forgiving you this time

CHORUS

I'm sleeping all alone
tell me you're coming home
I'm sleeping all alone - tonight
If I had a half a mind
I'd kick you out the door
and if I were an other guy
I'd even up the score
But you see I love you
and a body has a will
so please don't knock me in the heart
I hope you had your thrill
You know that you made mistakes
and me I made some too
so hurry home and ask me
if I'm - television blue

CHORUS

I felt strong enough
to play a tough man's game
quit chasing after love
that never'll be the same - with you
See if you got your second chance
and that's all that you get
some guys wouldn't give you that
you better watch your stand

CHORUS
