

The Price of Loving You

Bonfire

running for her something
looking for someone
that's why I needed you so badly
searching such a long time you head on me life lie
then you hurt me like a hammer
wooooooooooooo

I can't take it anymore
I can't live with you I'm without you
It's the price of loving you
I don't know the fake on me truth
I'm being the price of loving you
All I know is that I want you
I want youuuuuuuuu

Signed baby you brake me
You play with my witness

- - - - -

devil just like an angel
you tast just like heaven
But your love is poison
No, my damn baby
