

You Are All

Bonfire

I know you're home
But I don't have, to call you
Feel so alone
Cause You're not here by my side
It's really alert,
when you look me in the eyes.
Can say the words?
A whisper every night
You're all tha I've never needed
You're the one that i want in mi life
Girl I swear to you
The love on your live
Cause I know stream
And never to say goodbye
You'll never say goodbye
The way you smile
make my heart burn, with desire
I see a prear
the every rac of chake(I want you so bad, baby)
So many nights
I've been waiting for the day
With every shine,
A heart is try to say
Chorus
My love is grown stronger everyday
I gotta tell you,
Baby, help me find a way
mini-solo
Chorus
