

I Hold Her

Bonnie McKee

1. Smokey is my apple
And green are my eyes
Silent is snowfall
I whisper goodbye
Farewell to the child
That I use to be
I hold her she's
sobbing My baby
2. The wolf and the lion
Have asked me to play
Though she told me
not to I went anyway
A pile of matches
The truth at my feet
I hold her she's
sobbing My baby
- R: The cream in my tea
Spells out something
to me And they say
That I'll heal by the day
But the message I give
Kills off all will to live
I'm afraid that I'm losing my way
3. Burning in heaven
My destiny lies
When she read my stars
She didn't mention that night
I loved you my Bambi
I don't want to leave
But I hold her
she's sobbing My baby
- *: I hold her she's sobbing
I hold her she's sobbing
I hold her she's
sobbing My baby
