

# Call My Name

BONNIE PINK

When she died in your heart  
Did you hear the sound of it?  
When you found something new to love  
Did you hear your brain  
Say "go"?

It's easy to look back  
But you can't undo the past  
Why don't you try your luck  
Just call my name

You must be sick of  
Space and time  
Haunted by your lies  
With the things you chose  
In your life  
Did you ever feel satisfied?

It's easy to look back  
But you can't undo the past  
I'll justify your lack  
Please call my name  
It's easy to look back  
But you can't undo the past  
Why don't you try your luck  
Just call my name

It's easy to look back  
But you can't undo the past  
Why don't you try your luck  
Just call my name
