Quiet Life

BONNIE PINK

This is land very far from you I never can touch your face This is the land far from happy So am I, no matter where I go Pretty landscape, fresh coffee Quiet life I longed for is my enemy now "What's wrong with you, babe ? " Ask an old goat I forgot everything even a bitter smile

In a dream, darling You stroke my arms and say "It's O. K. It's O. K. " But I knew it doesn't last so long So I try to dream of you every night And I try to hold you every time

This is the land very far from you I never can hear your voice This is the land far from success So am I, no matter how you bet Perfect starry sky, grand piano Quiet life I longed for is my enemy now Birds started for you Left me here I forgot everything even your way of waving

In a dream, darling
You stroke my arms and say
"It's O. K. It's O. K. "
In a dream, darling
You stroke my hair and say
"It's O. K. It's O. K. "
But I knew it doesn't last so long
So I try to dream of you every night
And I try to hold you every time

Quiet life Quiet life
