

# All We Have Is Tonight

Bonnie Tyler

There's a chance that we can make it  
There's a chance to make it right  
Words cannot express my love  
On this endless night  
We're just one step from heaven  
One step from paradise  
Memories are made of this  
Don't tell me no lies

Give me one good reason  
If you don't want my love  
Everybody needs some love  
And I think I've got enough

\*All we have is tonight  
Don't throw away this miracle  
We are sparkling bright  
You gotta let me feel the thrill  
You're only one playin' the game  
The loser's gonna fall  
Try if you want to, try if you dare  
Winners take it all

Baby, can't you hear my heartbeat  
I'm lookin' through the eyes of love  
Heaven just can wait a while  
One night is not enough

We could be so good together  
We can make it on our own  
There must be a way, my love  
Don't ride this wave alone

Lost between two fires  
The night meets the day  
Fighting for my hungry heart  
Love is here to stay

(\* Repeat)
