## **Baby I Remember You**

## **Bonnie Tyler**

Sometimes, late in the night I wonder how it is
Two people so much in love
Should end up like this

May hear you somewhere So many world's apart When you think how close we were It's enough to break your heart

Baby baby baby
Remember the love you gave me
Baby baby I remember you
Baby baby baby
Remember the love you gave me
'Cause baby baby, I sure remember you

Sometimes, late in the night Holding someone new Sometimes I have closed my eyes And thought that it was you

Dreams, dreams of what might have been Is living in the past I'm just glad that I knew you once Although it couldn't last

Baby baby baby Remember the love you gave me 'Cause, baby baby I sure remember you...(4x)
