Call Me

Bonnie Tyler

Love will always find the way Feelings are the hardest words to say Oh call me, call me Baby, always call your name I would never feel this way again Oh call me, call me

There is love enough, enough for two There will never he another you How can you mend a broken heart Oh he said goodbye without a tear Through a million souls, a million fears That's no way to say goodbye

R: Call me, call me Tell me what you feel My love never dies (My love never dies) Call me, call me Tell me what you feel You light up my life (You light up my life)

Love don't ever die

I'll he there if you want me I'm living with my memories Oh call me, call me From the bottom of your heart You Swore we'd never break apart Oh call me, call me

Oh hold on tight and don't let go If you love me let me know I never had a love like ours

Call me, call me Tell me what you feel My love never dies (My love never dies) Call me, call me Tell me what you feel You light up my life

Oh I'm never gonna give you up Why did you break my lonely heart My world begins and ends with you If there's one thing that I know Babe, I'll never let you go If I sold my heart to you

Call me, call me Tell me what you feel My love never dies Call me, call me Tell me what you feel You light up my life (You light up my life)

R: Call me, call me...

Call me, call me Tell me what you feel My love never dies
