

Goodbye To The Island

Bonnie Tyler

Goodbye to the island
Hello to the rain
It's gone like a dream in the night
And it won't be back again

Goodbye to the island
Where our bodies touched
Goodbye to a little bit of heaven
And I miss you so much

(Oh) Why love did you treat me this way
Why love did you treat me this way
Why love did you treat me this way
Why love did you treat me this way

A bed it is an island
A world apart
Soft words in the middle of the night
Straight from the heart
Two heads on a pillow
So warm, so close
Goodbye to the island
Where, where it mattered the most
