## **Goodbye To The Island**

## **Bonnie Tyler**

Goodbye to the island
Hello to the rain
It's gone like a dream in the night
And it won't be back again

Goodbye to the island Where our bodies touched Goodbye to a little bit of heaven And I miss you so much

(Oh) Why love did you treat me this way Why love did you treat me this way Why love did you treat me this way Why love did you treat me this way

A bed it is an island
A world apart
Soft words in the middle of the night
Straight from the heart
Two heads on a pillow
So warm, so close
Goodbye to the island
Where, where it mattered the most
