

# I Climb Every Mountain

Bonnie Tyler

Paradise is here my love, with you by my side  
Now until forever, till the end of time  
I wished upon a thousand stars, someday you I'd find  
I'm living for you baby, you'll always be mine  
I m searching for you baby  
Drowning in your love  
No I'll never give it up

R1: Oh I climb every mountain  
And I cross every sea  
To lay in your arms for eternity  
Sail every ocean  
To capture your heart  
To be in your arms  
Never to be apart

R2: I climb every mountain - To be with you  
I cross every sea - To be with you  
I'm here for you darling  
You belong to me

Since you won my heart, my love  
I've never been the same  
I need your love to feed it  
Like a flower needs the rain  
Somethings, they will never change  
Babe, you know it's true  
I live for you only, it's all that I can do  
Waiting for you baby  
Hungry for your love  
No I'll never get enough

R1: Oh I climb every mountain...

R2: I climb every mountain - To be with you...
