Keep Your Love Alive

Bonnie Tyler

When it's getting good Then you better be safe 'Cause a mind like yours is too good to waste Keep your love alive - keep your love alive

A body like yours It would be a crime If you push it to the edge of the borderline Keep your love alive - keep your love alive

Gotta be careful when you're taking a chance You gotta take care - it's a new romance Keep your love alive - love alive

It really never was about a one night stand It's a love for life so you better think twice Keep your love alive - love alive

Love for life Love for life Love for life You'll be alive tomorrow if you're safe today What better way to show you care for me

Can't ignore the facts when they're in your face It's time you took responsibility Keep your love alive - keep your love alive

'Cause you know the love we have is always gonna be You know I want you and you want me Keep your love alive - love alive

Love for life Love for life Love for life You'll be alive tomorrow if you're safe today What better way to show you care for me

When the love is right You gotta say I want you here inside my life Living for the light that's coming from within I want to take good care of you - I love you

When it's getting good Then your better be safe Cause a mind like yours is too good to waste Keep your love alive - keep your love alive (Love for life, Love for life, Love for life) A body like yours It would be a crime If you push it to the edge of the borderline Keep your love alive - keep your love alive (Love for life, Love for life, Love for life) Gotta be careful when you're takin a chance You gotta take care - it's a new romance Keep your love alive - love alive (Love for life, Love for life, Love for life)
