

## Save Your Love

Bonnie Tyler

I've always wandered alone  
Afraid and on my own  
But up till now I'd think of you  
Memories lost and regained  
Seemed to refrain me  
On days that weren't quite so blue

R: Save your love  
Like it means the world to you  
'Cause that's exactly what  
Your love means to me  
It's like a spirit lost  
And finally set free  
Come on and save your love  
Save your love for me

You upped and told me your feelings  
Hiding down deep within  
Where do I begin  
So I'll keep on singing this song  
Hope you'll sing along  
Then maybe someday we'll be friends

R: Save your love... (2x)

Save your love, oh yeah  
Save your love  
Come on and save your love  
Save your love for me  
Save your love, save your love  
Come on and save your love  
Save your love for me

R: Save your love...

Save your love  
Oh save your love  
Save your love, oh yeah yeah  
Save your love  
Save your love  
Come on and save your love  
Save your love...
