

Stand Up

Bonnie Tyler

Some days you don't understand
All the world looks upside down
When you're trying to be strong
Nothing ever falls in place

Don't give up and let your shadows swallow up your mind
No, that's no way to treat yourself - just leave your doubts behind

Stand up - for what you're fightin' for
Stand up - just don't take anymore
Stand up - for what you're fightin' for my friends
Stand up - for what you're fightin' for
Stand up - some things you can't ignore
Stand Proud - for what your fightin' for my friends
Oh, oh!

When accusations put you down
And people talk behind your back
Turn your head and walk away
Never let them see you frown

Don't give up and let your shadows swallow up your mind
No, that's no way to treat yourself - just leave your doubts behind

Stand up - for what you're fightin' for
Stand up - just don't take anymore
Stand up - for what you're fightin' for my friends
Stand up - for what you're fightin' for
Stand up - some things you can't ignore
Stand Proud - for what your fightin' for my friends

Don't give up and let your shadows swallow up your mind
No, that's no way to treat yourself - just leave your doubts behind

Stand up - for what you're fightin' for
Stand up - just don't take anymore
Stand up - for what you're fightin' for my friends
Stand up - for what you're fightin' for
Stand up - some things you can't ignore
Stand Proud - for what your fightin' for my friends

Stand up - for what you're fightin' for
Stand up - just don't take anymore
Stand up - for what you're fightin' for my friends
Stand up - for what you're fightin' for
Stand up - some things you can't ignore
Stand Proud - for what your fightin' for my friends

Stand up
Stand up
Stand proud
Stand up
