

Stay

Bonnie Tyler

Oh I know - you've been fooling with my heart
Cause deep inside - you don't know where to start
So insecure - of what tomorrow will
Oh please be sure - you're my all and everything
You've heard it all before
I'm asking you once more

To baby stay - stay for a lifetime
Don't go away - oh baby be mine
Cause I know - I'll always be loving you
Oh baby stay - with me forever
For we were born - to be together
Cause we are strong - I've always believed in you

Oh I know - strange things happen every day
This love will grow - you're the light to guide my way
Don't be afraid - I'll never let you down
Please won't you stay - have faith in this love that we've found
Don't throw this love away - oh baby won't you stay

Oh baby stay - with me forever
For we were born - to be together
Cause we are strong - I've always believed in you
Oh baby stay - stay for a lifetime
Don't go away - baby be mine
Cause I know - I'll always be loving you
