

Happy Day

Book Of Love

Can't describe what it was
What shined, shined so bright

Hold on to the light
Save from the night

Oh, I can see
When you walk with me
Time to begin again

Lead us, lead us to a happier day
Happy day, happy day
Happy day, happy day

Say goodnight
Wake up, you're late for tomorrow
I'd like nothing to do
I would dream, dream about you

Lead us, lead us to a happier day
