

## Bad Love

Booka Shade

Come and get it, come and get it now  
There's a big day waiting for you  
Come and get it, come and get it now  
Such a big day waiting for you  
If you're willing just to take a chance  
You gonna shine, shine on, my friend  
Shine on, my friend  
You were there up in my room  
Didn't have a word to say  
Suddenly you started to move  
So I thought that must be a way  
To get a little closer to you  
Ooh, ooh, ooh  
Just to get a little closer to you  
Ooh, ooh, ooh  
Come and get it, come and get it now  
There's a big day waiting for you  
Come and get it, come and get it now  
Such a big day waiting for you  
If you're willing just to take a chance  
You gonna shine, shine on, my friend  
Shine on, my friend  
Maybe you got something to prove  
I'll clear your doubts away  
Nothing can happen too soon  
Too...
