Look At All The People

Boomkat

Ah, yeah
(Look around...) All their eyes are starin' at u

Look at all the people,
Starin at u and u
They wanna see u do your best,
So u better stand up to the test
Look at all the people
Holdin' their breathe and know whats right
So feed it to them, but make it good
And ease your mind cause u'll be understood

U dont know me like u seem to think u do
If u look right next to u
U'll see ur not alone
But u try and feel,
They'll steal it all from u
Give urself some time to think
Just think things through
Think things through

Look at all the people
Starin at u and u
They wanna see u do ur best
So u better stand up to the test
Look at all the people
They're waitin to see if you've arrived
So lock down and look in their eyes
Know that this is your time
Represent with no disguise

U dont know me like u seem to think u do
If u look right next to u
U'll see ur not alone
But u try and feel,
They'll steal it all from u
Give urself some time to think
Just think things through
Think things through

Look at all the, look at all the, look at all the people

people...

people...

ah, yeah
