12 gauge double barrel  
Loaded full of buckshot  
Brewin up that mountain dew  
It boilin like a crockpot  
Deep out in theese southern woods and  
Far away from evrything  
Out amongst the tombstones  
Cookin up that hurracain  
Take a sip for testin then'  
Pour a littlie on the ground  
Soak up in that goregia clay  
And now i'm waitin for the sound  
150 year burried deep in the earths grip  
Soon there gonna dancein  
When that cool water hits there lips  
Made from the mill  
Out a feild cursed by whodo  
Water from a well  
Striaght outta hell  
Cursed by vodoo  
Stir it up cook it to the point that it evaporates  
173 degrees born again  
The dead awake

100 galleons of that right good top stock  
Ready for the shippin  
In a heavy chevy small block

Foot to the floor  
Ridin mean like an out law  
Duckin dogein road blocks  
Like boxing with an south paw  
These dark and dusty roads  
Lite up by the full moon  
Comin round the corner  
Muffler soundin like a moonson  
I got the devils mean as demons  
Ridin shotgun  
Straped with a winchester  
Case they have to pop one  
We headin for the next county  
On the southin trail  
G man and revenue hot on me southern tail  
Hang out the window  
One blast with the buckshot  
Need get em off my ass so that i don't get got

Wild liter??, sugar wiskey, stump pole, skull cracker, alley bourbon, city g  
in, wildcat, block  
And tackle  
Its how we do it  
How we get it to the next level  
Have us huntin bitches down  
With pick axe and shovel  
Gone of that good shit  
Hit ya like a mule kick  
Pick a hater out the crowd  
And hit em with a pool stick  
Hulleonations seein shit  
Got ya climbin trees  
Passed out in a ditch  
Like a bitch down on ya knees  
Don't even give a fuck  
When the spirts hit ya brain  
Four shots is all ya need  
Certified gone insane  
Lets get it crackalackin  
One more 'gain for the pimpin  
Take the jug  
And turn it up chug it down  
And start the sippin
