

# Flash Light

Bootsy Collins

Now, I lay me down to sleep  
Ooh, I just can't find a beat  
Flash light, oh, I will never dance  
Flash light, flashlight, flashlight

Oh, it's no use

Flash light, red light  
Neon light, ooh, stop light

Now I lay me down to sleep  
I guess I'll go count the sheep  
Oh, but I will never dance

Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk

Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk

Flash light, flash light  
Spot light, spotlight  
Neon light, neon light  
Street light, street light

Everybody's got a little light under the sun

Shinin' on the funk, shinin' on the funk, help him find  
Shinin' on the funk

Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk  
Most of all need funk, help him find the funk

Flash light, flash light, flash light  
Flash light, flash light, flash light

Shake your funk, shake your funk  
Shake your rump  
I think I found the funk

Flash light, flash light  
Day light, day light  
Spot light, spot light  
Red light, oh ho, red light

Everybody's got a little light under the sun

Everybody's got a little light under the sun  
Under the sun, under the sun, under the sun  
Under the sun, under the sun, under the sun  
Under the sun
