

Black Widow

Booty Luv

He should be thinking about staying away
Toying with him and I playing no games
I'm leaving dazed and deranged
After he feels the poison race through his veins

I chew you up spit you out cause that's what i'm all about
I leave you soft in the middle
I break your heart just a little
I got that black black widow widow
Black black widow widow
She'll build you up, break you down
Whenever you are around
She ain't no saint, she's a sinner
You best believe she's a winner
She got that black black widow widow
Black black widow widow
Don't you get caught up in my love
Cause tonight gonna it's gonna be over
And i know that is wrong
But tonight gonna it's gonna be over
I'm gonna be the last last love of your life

Trapped in my world and there's no way to escape
Caught in my clutches and I'm having my way
I'm leaving him with nothing to say
My bitter kiss will be the last thing he tastes
I chew you up spit you out cause that's what i'm all about
I leave you soft in the middle
I break your heart just a little
I got that black black widow widow
Black black widow widow
She'll build you up, break you down
Whenever you are around
She ain't no saint, she's a sinner
You best believe she's a winner
She got that black black widow widow
Black black widow widow
Don't you get caught up in my love
Cause tonight gonna it's gonna be over
And i know that is wrong
But tonight gonna it's gonna be over
I'm gonna be the last last love of your life

Come inside I won't bite
I'll love and leave you wrapped in silk for one night
It's alright put up a fight
Cause i'm a be the last love of your life, your life yeah
Cause i'm a be the last love of your life, your life yeah
Yeah
