

Farewell Goodbye

Booze & Glory

You had your flaws like we all do
But you let brown get a hold of you
Only think about what you could of done
If you only lived past 21
But your cards were marked it weren't to last,
How were you to know
But you weren't pushed it's the path you chose

Farewell, Goodbye!
Now we see the flame just burnt too bright
Flame burnt too bright

If you could change the past what would you do
Have you left something to prove?
The reckless way you used to act
You was born to lose just face the facts
So now sleep well coz no one said that life is fair
And in few years I'll see you there
