

## London Skinhead Crew

### Booze & Glory

Years go passing by but we are still about  
Against society and all that crap  
This is not a fashion its a way of life  
Getting older but we won't give up

Coz we got nothing else to do  
London Skinhead Crew  
Scars, tattoos, crombie coats, full of trouble  
We grew up on dead end streets  
Lack of teeth - full of dreams  
Drinking beer and forever blowing bubbles

Football on Saturday, Camden Sunday night  
And we're skint again but we don't care  
Smell of 2 stroke every year at Isle of Wight  
Skinhead Reggae beat and short cropped hair

We are the lost generation with not much left to lose  
Wearing shiny brogues and tonic suits  
All we want is a bit of thrill, fags and booze  
And crazy skinhead girls in monkey boots
